

Message From The Desk

Dear Readers

Warm greetings to you all for the festive season.

We are extremely delighted that the e-newsletter of Science City 'Buzzer' is entering seventh year milestone. Visitor feedback has always played a vital role in how PGSC manages its daily operations and in our delivery of outreach programmes across region. We would like to thank all those who have supported us all these years and sent us useful feedback not only on the newsletter but as well on various other aspects of the Science City. Knowing when we are giving you, our visitors a valuable and enjoyable experience of the world of science and technology helps us stay on track.

It also gives me immense pleasure to announce that we are starting our fifth RISHI camp from 15 October 2016. Our outreach programme of Science Communication 'Mobile Science Exhibition' has reached to more than 1.75 lac people across Punjab. In another programme of Department of Education, Mukh Mantri Vignyan Yatra, Science City received approximately 40 K students.

Conservation education is an important part of information dissemination aimed at spreading the message of nature conservation. As part of this, three nature awareness camps were conducted in the past quarter for students of Govt. Schools.

We offer hands-on experiences and insights into science and technology that help us understand the world around us and participate in today's knowledge-based society. We proudly engage more than 3,50,000 visitors annually and hope you are one of them.

Jaskiran Singh
Director General

New film in Large format film theatre

National Parks Adventure takes audiences on the ultimate off-trail adventure into America's awe-inspiring great outdoors and untamed wilderness. Immersive IMAX® 3D cinematography takes viewers soaring over red rock canyons, hurtling up craggy mountain peaks and into other-worldly realms found within America's most legendary outdoor playgrounds, including Yellowstone, Glacier National Park, Yosemite, and Arches.

Its not about ideas.. Its about making things happen..

REGIONAL INCUBATION SCIENCE HUB FOR INNOVATORS (RISHI)

Pushpa Gujral Science City (PGSC) organizes a camp for young talented students under its National Council for Science & Technology Communication (NCSTC), DST,GOI supported project "Regional Incubation Science Hub for Innovators" (RISHI) phase-II. The project is aimed at providing platform to talented students to pursue their promising innovative ideas so as to offer solutions to the community problems through Science and Technology.

Eligibility: Students having passed 9th -11th class

Duration : 3 weeks during October 2016 (Starting tentative date 15-10-2016)

Detailed guidelines including format for proposal submission are available at our website www.pgsciencecity.org

Free boarding and lodging as well as stipend will be given to successful participants on the completion of the Internship camp.
